### **OCBC Group Reported Second Quarter 2017 Net Profit of S\$1.08 billion**

***Second quarter earnings grew 22% year-on-year and 11% from the previous quarter***

***Half year net profit up 18% year-on-year to S\$2.06 billion***

Singapore, 27 July 2017 – Oversea-Chinese Banking Corporation Limited (“OCBC Bank”) reported a net profit after tax of S\$1.08 billion for the second quarter of 2017 (“2Q17”), an increase of 22% from S\$885 million (“2Q16”) a year ago, and 11% above S\$973 million in the previous quarter (“1Q17”). The Group’s banking, wealth management and insurance operations delivered a strong year-on-year performance, driven by growth in net interest income, fees and commissions, net trading income and profit from life assurance.

Net interest income rose 7% to S\$1.35 billion in 2Q17 from S\$1.26 billion a year ago, largely driven by strong lending growth across the Group’s corporate and consumer businesses. Customer loans growth was broad-based and rose 11% from the previous year. Net interest margin (“NIM”) for the quarter was 1.65%, as compared to 1.68% a year ago and up from 1.62% the previous quarter. The 3 basis points year-on-year decline in NIM was mainly from a fall in loan yields, partly offset by higher gapping income and a drop in funding costs.

Non-interest income rose 34% to S\$1.05 billion from S\$788 million a year ago. Fees and commissions climbed 18% to S\$492 million from higher income associated with loan and trade-related activities, wealth and fund management, credit card and brokerage. In particular, wealth management fee income rose 45% year-on-year, partly attributable to the inclusion of the former wealth and investment management business of Barclays PLC in Singapore and Hong Kong (“Barclays WIM”) acquired in November 2016. Net trading income, comprising predominantly treasury-related income from customer flows, grew 14% year-on-year to S\$140 million, while net realised gains from the sale of investment securities was 23% higher at S\$54 million. Profit from life assurance was significantly higher at S\$240 million, as compared with S\$108 million in the preceding year, driven by higher operating profit and positive performance from Great Eastern Holdings’ (“GEH”) investment portfolio as a result of narrowing of credit spreads and gains from favourable interest rate movements. Total weighted new sales and new business embedded value at GEH increased 6% and 17% year-on-year respectively, reflecting strong underlying business growth.

The Group’s share of results of associates also rose 17% to S\$119 million from S\$103 million in 2Q16.

Operating expenses for the quarter were up 6% at S\$992 million from S\$932 million a year ago, partly attributable to an increase in staff costs associated with the inclusion of Barclays WIM. The cost-to-income ratio improved to 41.4% from 45.5% in 2Q16. Allowances for loans and other assets were S\$169 million, higher as compared to S\$88 million a year ago, but flat on a quarter-on-quarter basis.

Against the previous quarter, the Group's net profit after tax grew 11%. Net interest income increased 6%, underpinned by 3% growth in average assets and a 3 basis points improvement in net interest margin from higher gapping income and an increase in the average loans-to-deposits ratio ("LDR"). Non-interest income rose 8% mainly from higher fee income and profit from life assurance. Operating expenses were well-controlled, rising 2% against 1Q17. Net allowances for loans and other assets were relatively unchanged from the previous quarter.

### **First Half Performance**

Net profit after tax for the first half of 2017 ("1H17") of S\$2.06 billion was 18% above S\$1.74 billion a year ago ("1H16").

Net interest income rose 2% to S\$2.62 billion, as average asset volumes grew 7%, more than offsetting a 7 basis points decline in net interest margin. Non-interest income of S\$2.03 billion was up 32% year-on-year. Fee and commission income increased 23% to S\$973 million, led by higher income generated from wealth management, fund management and investment banking activities. Net trading income grew 22% to S\$298 million, attributable to an increase in customer flows. Net gains from the sale of investment securities were 16% higher at S\$119 million while profit from life assurance of S\$416 million in 1H17 more than doubled from S\$191 million a year ago.

Overall wealth management income, comprising income from insurance, private banking, asset management, stockbroking and other wealth management products, grew 51% to S\$1.51 billion, from S\$1.00 billion a year ago. As a proportion of the Group's total income, wealth management contributed 33%, higher as compared with 24% in 1H16. OCBC's private banking business continued to achieve strong growth, as reflected by an increase in assets under management to US\$89 billion (S\$123 billion) as at 30 June 2017, up 47% from US\$61 billion (S\$82 billion) the previous year, partly contributed by the acquisition of Barclays WIM.

The Group's operating expenses were 6% higher at S\$1.97 billion, mainly from staff-related costs, including those associated with the consolidation of Barclays WIM. Net allowances for loans and other assets of S\$337 million were higher than S\$255 million set aside a year ago.

Income from associates of S\$233 million in 1H17 rose 12% from S\$209 million a year ago.

Annualised return on equity for 1H17 was 11.4%, higher than 10.3% a year ago. Annualised earnings per share amounted to 97.7 cents, as compared to 83.5 cents a year ago.

## **Allowances and Asset Quality**

Total net allowances for loans and other assets for 2Q17 were S\$169 million, flat as compared to S\$168 million the previous quarter but higher than S\$88 million a year ago. Specific provisions for loans, net of recoveries and write-backs of S\$105 million were slightly below S\$108 million a quarter ago and represented an annualised 19 basis points of loans. General provisions of S\$59 million were set aside in line with loan growth.

As at 30 June 2017, the level of total non-performing assets (“NPAs”) of S\$2.92 billion was relatively stable against S\$2.87 billion in 1Q17. Compared to S\$2.49 billion a year ago, the increase was mainly attributable to the downgrade of corporate accounts in the oil and gas support services sector which remained under stress. The overall non-performing loans ratio of 1.3% was unchanged from a quarter ago. Healthy coverage ratios were maintained, with total cumulative allowances covering 304% of unsecured NPAs and 101% of total NPAs at the end of 2Q17.

## **Funding and Capital Position**

The Group maintained its strong funding and capital position as at 30 June 2017. Customer loans were up 11% to S\$229 billion, while customer deposits rose 7% year-on-year to S\$264 billion. The increase in deposits was driven by an 11% rise in current account and savings (“CASA”) deposits, which made up 50.9% of total non-bank deposits, higher than 49.3% a year ago. The LDR was 85.2% as compared to 82.2% the previous year.

For 2Q17, the average Singapore dollar and all-currency liquidity coverage ratios for the Group (excluding OCBC Wing Hang Hong Kong, OCBC Wing Hang Macau and OCBC Yangon which will be included in due course) were 260% and 144% respectively, higher as compared to the respective regulatory ratios of 100% and 80%.

The Group's Common Equity Tier 1 capital adequacy ratio (“CAR”), Tier 1 CAR and Total CAR as at 30 June 2017, were 13.0%, 13.9% and 16.1% respectively. Based on Basel III transitional arrangements, these ratios were well above the respective regulatory minima of 6.5%, 8% and 10%. In addition to these minimum capital requirements, a capital conservation buffer (“CCB”) of 2.5% and countercyclical buffer of up to 2.5% will be phased in from 2016 to 2019. The CCB was 1.25% as at 1 January 2017, and will be increased by 0.625% each year to reach 2.5% on 1 January 2019. The Group's leverage ratio of 7.8% was better than the 3% minimum requirement as guided by the Basel Committee.

## **Interim Dividend**

An interim dividend of 18 cents per share has been declared for the first half of 2017, unchanged from the 18 cents interim dividend declared a year ago. The Scrip Dividend Scheme will not be applicable to the interim dividend. The interim dividend payout will amount to approximately S\$753 million, representing 37% of the Group's 1H17 net profit after tax.

## **CEO's Comments**

Commenting on the Group's performance and outlook, CEO Samuel Tsien said:

“Strong business momentum was achieved across all three business pillars – banking, wealth management and insurance. Income growth was broad-based, lending activities were up, AUM continued to rise, and underlying insurance business growth continued. OCBC Group maintained its healthy capital, funding and liquidity positions, and the overall loan portfolio remained sound, with the NPL ratio stable over the last three quarters.

Stronger consumer sentiments were noted in key economies, but overall economic growth in the region is expected to only be moderate and event risks remain. We will pursue prudent business growth, focusing on our key markets and core business lines.”

## NET INTEREST INCOME *(continued)*

Net interest income rose 7% to S\$1.35 billion in 2Q17, up from S\$1.26 billion a year ago, mainly driven by loan growth across both corporate and consumer businesses, despite the 3 basis points decline in net interest margin to 1.65%, from 1.68% in 2Q16. The contraction in net interest margin was largely attributable to a fall in loans yields, partly offset by higher gapping income and a decline in funding costs.

Net interest income was 6% higher from S\$1.27 billion a quarter ago, underpinned by asset growth and an improvement in net interest margin. Net interest margin rose 3 basis points quarter-on-quarter, mainly from an increase in gapping income and a higher average loans-to-deposits ratio.

Non-interest income was S\$1.05 billion for 2Q17, and was 34% higher as compared to S\$788 million a year ago.

Fee and commission income rose 18% to S\$492 million for the quarter, up from S\$417 million in 2Q16. This was largely driven by an increase in income from loan and trade-related activities, wealth and fund management, credit card and brokerage. The growth in wealth management fees was partly attributable to the inclusion of the former wealth and investment management business of Barclays PLC in Singapore and Hong Kong (“Barclays WIM”) acquired in November 2016. Net trading income, predominantly treasury-related income from customer flows, of S\$140 million was higher as compared to S\$123 million a year ago. Net realised gains from the sale of investment securities was 23% higher at S\$54 million, up from S\$44 million in 2Q16. Profit from life assurance grew year-on-year to S\$240 million, from S\$108 million a year ago, mainly attributable to higher operating profit and positive performance from Great Eastern Holdings’ (“GEH”) investment portfolio as a result of the narrowing of credit spreads and gains from favourable interest rate movements.

Compared to 1Q17, non-interest income grew 8% from S\$977 million, led by higher fee income and profit from life assurance.

Operating expenses for the quarter were up 6% at S\$992 million, from S\$932 million in 2Q16. Staff costs rose 6% to S\$619 million, as compared to S\$583 million a year ago, mainly attributable to higher base salaries and staff costs associated with the inclusion of Barclays WIM. Property and equipment-related expenses were S\$195 million in 2Q17, up 4% from S\$189 million in 2Q16, largely from higher depreciation expenses and technology-related costs. Other operating expenses were 11% higher year-on-year at S\$178 million as compared to S\$160 million a year ago.

Compared to 1Q17, operating expenses rose 2% from S\$973 million, mainly from higher staff costs as the Group's annual salary increments took effect in April 2017.

The cost-to-income ratio was 41.4% in 2Q17 and 42.3% for 1H17, lower as compared to 45.5% and 45.2% in the respective periods a year ago.

## NON-PERFORMING ASSETS (continued)

Non-performing assets ("NPAs") were S\$2.92 billion as at 30 June 2017, an increase of 17% from S\$2.49 billion a year ago, and were up 2% as compared to the previous quarter. The year-on-year increase in NPAs was mainly from the downgrade of a few large corporate accounts associated with the oil and gas services sector which remained under stress.

The Group's NPL ratio of 1.3% was unchanged from the previous quarter, and was higher as compared to 1.1% a year ago. Of the total NPAs, 65% were in the substandard category and 67% were secured by collateral.

For 2Q17, the average Singapore dollar and all-currency liquidity coverage ratios ("LCR") for the Group (excluding OCBC Wing Hang Hong Kong, OCBC Wing Hang Macau and OCBC Yangon which will be included in due course) were 260% and 144% respectively. Compared to 1Q17, the average all-currency LCR was higher by 1 percentage point. This is relatively stable compared to the previous 2 quarters as the Group continued to support the net cash outflow with a diversified pool of High Quality Liquid Assets ("HQLA").

The Group continued to focus on acquiring stable deposits and to maintain a mix of HQLA comprising mainly Level 1 central bank reserves and liquid sovereign bonds. The Asset & Liability Management Desk in Global Treasury manages the day-to-day liquidity needs of the Group, and is subject to liquidity limits and triggers that serve as risk control on the Group's liquidity exposure.

Total	<b>8,535</b>	7,229	6,447	6,297

Notes:

- Includes properties classified as investment properties and assets held for sale. Property values are determined mainly based on external valuations at year-end, with internal reviews performed for other quarters.
- Comprises mainly investments in quoted subsidiaries, a quoted associate and the investment in Hong Kong Life Insurance Limited ("Hong Kong Life"), which are valued based on their quarter-end market prices for quoted equities and the sale consideration for Hong Kong Life.

The Group's unrealised valuation surplus largely represents the difference between the carrying values of its properties, its investments in quoted subsidiaries and an associate, the investment in Hong Kong Life, and the market values of properties and equity securities at the respective periods. The carrying values of subsidiaries, associate and Hong Kong Life on the balance sheet are measured at cost plus post-acquisition reserves, while those of properties are measured at cost less accumulated depreciation, and impairment, if any.

The valuation surplus as at 30 June 2017 was S\$8.54 billion, up 18% from S\$7.23 billion as at 31 March 2017, mainly from higher market valuation from the Group's equity stake in GEH.

## PERFORMANCE BY BUSINESS SEGMENT *(continued)*

Global Corporate/Investment Banking's operating profit after allowances fell 17% year-on-year to S\$785 million in 1H17, largely attributable to a decline in net interest income and higher allowances. 2Q17 operating profit was down 5% year-on-year to S\$429 million, as net interest income and fee income growth was more than offset by an increase in allowances. Quarter-on-quarter, operating profit rose 21%, driven by a rise in net interest income and fee income.

### Global Treasury and Markets

Global Treasury and Markets is responsible for the management of the Group's asset and liability interest rate positions, engages in foreign exchange activities, money market operations, fixed income and derivatives trading, and offers structured treasury products and financial solutions to meet customers' investment and hedging needs. Income from treasury products and services offered to customers of other business segments, such as Global Consumer/Private Banking and Global Corporate/Investment Banking, is reflected in the respective business segments.

Global Treasury's operating profit increased by 8% to S\$243 million in 1H17, and 28% to S\$134 million in 2Q17. The higher year-on-year operating profit was largely contributed by higher net interest income from gapping opportunities. Compared with 1Q17, operating profit in 2Q17 was up 22%, led by net interest income growth.

### OCBC Wing Hang

OCBC Wing Hang offers a comprehensive range of commercial banking and related financial services such as consumer financing, share brokerage and insurance.

OCBC Wing Hang's operating profit after allowances rose 5% to S\$176 million in 1H17, mainly attributable to broad-based income growth and lower allowances, partly offset by an increase in expenses. 2Q17 operating profit increased 7% quarter-on-quarter, led by an increase in net interest income and lower expenses.

### Insurance

The Group's insurance business, including its fund management activities, is undertaken by 87.8%-owned subsidiary GEH and its subsidiaries, which provide both life and general insurance products to its customers mainly in Singapore and Malaysia.

Operating profit after allowances from GEH more than doubled year-on-year to S\$533 million in 1H17 and S\$296 million in 2Q17. The growth for both periods was driven by higher operating profit and stronger investment performance of the Non-participating Fund as a result of narrowing of credit spreads and favourable interest rate movements. Compared with 1Q17, operating profit grew by 25%, led by an increase in insurance income.

After tax and non-controlling interests, GEH's contribution to the Group's core net profit was S\$413 million in 1H17 and S\$233 million in 2Q17, compared with S\$151 million in 1H16 and S\$78 million in 2Q16.

### Others

Greater China accounted for 14% of total income and 19% of pre-tax profit.

Pre-tax profit for Singapore was S\$767 million in 2Q17, an increase of 51% from S\$507 million a year ago, driven by higher net interest income and non-interest income. Malaysia's pre-tax profit was S\$182 million, 15% lower from S\$214 million in 2Q16, as growth in fee and trading income were offset by an increase in allowances. Pre-tax profit for Greater China of S\$256 million was up 2% from S\$253 million a year ago, mainly attributable to an increase in net interest income.

1H17 pre-tax profit for Singapore was S\$1.40 billion, up 29% from S\$1.08 billion a year ago, mainly attributable to broad-based income growth which more than offset an increase in operating expenses and allowances. Malaysia's pre-tax profit declined 6% to S\$381 million from S\$404 million, as higher fee income and lower operating expenses were offset by an increase in allowances. Pre-tax profit for Greater China was 3% higher at S\$490 million, from S\$475 million a year ago, led by higher fee income and lower operating expenses.
